

UNT SPEECH & HEARING CENTER

Summer Camps

June 2–July 17

About **UNT SPEECH & HEARING CENTER**

The University of North Texas Speech & Hearing Center has been serving people with speech, language, and hearing disorders since 1967. We strive to provide superior professional diagnostic and treatment services in speech-language pathology and audiology while providing excellence in clinical education for students in the Department of Audiology & Speech-Language Pathology at the University of North Texas. Our clinic features numerous therapy and diagnostic rooms, hearing aid technicians, a preschool language room, areas for families to observe clinical sessions, and reserved parking.

Conveniently located near downtown Denton and Interstate 35, the center attracts clients from throughout northern Texas and southern Oklahoma. The center averages 5,000 client visits per year, with over 150 people receiving therapy on a weekly basis and more than 500 coming to have their speech, language, or hearing evaluated. The professional personnel include 20 speech-language pathologists and audiologists, all holding professional certification from the American Speech-Language-Hearing Association or American Academy of Audiology and licensure from the state of Texas.

The UNT Speech & Hearing Center provides services to clients in a non-discriminatory manner without regard to race, color, religion, sex, national or ethnic origin, disability, age, sexual orientation, genetic information, citizenship, or status as a covered veteran.

For an appointment, call 940.565.2262 or email us.

The University of North Texas Speech & Hearing Center accepts referrals from community agencies, patients and their families, physicians, schools, speech-language pathologists, and other audiologists. The center accepts a wide variety of health insurance, including Medicare and Medicaid. For further information or to make an appointment, call 940.565.2262.

Eagle Express

July 7-10 & 14-17

9-11am Ages: 2-7

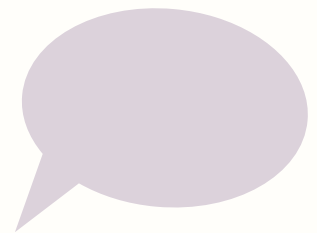

Cost: \$200 (*parents must be present if not potty trained*)

1-3pm Ages: 7-12

Cost: \$200

Literacy, STEM, gross motor, and 1:1 time

Join us for an exciting summer of speech therapy, where fun meets learning! Our camp combines STEM activities, literacy-building exercises, gross motor games, and individual therapy to help kids strengthen their communication skills. Each day is filled with hands-on projects, reading adventures, and group activities designed to support language development. Camps will be coordinated and supervised by staff speech-language pathologists in the UNT ASLP Department. Speech therapy will be provided by current graduate students. Attendees must be independent with toileting and other self-management skills.

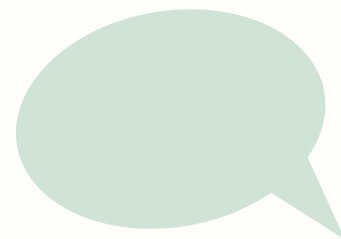

Articulation Bootcamp

July 7-10 & 14-17

9-11am Ages: 5-10

Cost: \$200 (*with current FIE & IEP from school and/or current TX plan*)

Children will participate in individual and group speech therapy activities while enjoying socialization, hands-on crafts, projects, and games. Camps will be coordinated and supervised by staff speech-language pathologists in the UNT ASLP Department. Speech therapy will be provided by current first- and second-year graduate students in the department. Attendees must be independent with toileting and other self-management skills and have a documented articulation disorder from school or other speech therapist. They will also attend a baseline appointment prior to their camp.

Eagle Eat

June 2-5 & 9-12

11am-12:30pm Ages: 5-8

Cost: \$200 (*parents must be present if not potty trained*)

Join us for a feeding therapy camp! Kids aged 5-8 will bring in their own lunch and work with supervising speech-language pathologists and graduate students to build confidence around eating. Through peer interactions, sensory strategies, and food play, children will explore new textures, tastes, and smells in a pressure-free environment.

ImpAACtful Eaglets + Caregiver Coaching

July 7–10 & 14–17

3–5pm Ages: 4–8

Cost: \$200 (*caregiver/parent must attend*)

Join ImpAACtful Eaglets + Caregiver Coaching this summer for kids ages 4–8 who use augmentative and alternative communication (AAC) devices! Our camp offers a fun, supportive space for kids to practice communication skills through personalized speech therapy approaches, AAC device practice, and peer interactions, led by experienced speech-language pathologists and graduate student clinicians. Caregivers will also receive valuable support and resources during optional simultaneous group meetings. Eaglet campers must currently use and **bring to camp** an AAC system, be independent with toileting, and be able to participate in group. Documentation of current skills and goals is required.

Adventures With Augmentative Communication & Caregiver Coaching

June 16–25

1–3pm Ages: 9–16

Cost: \$150 (*must be current AAC users*)

This group will focus on socialization with similar aged peers who utilize augmentative and alternative communication (AAC). Participants will have the opportunity to build meaningful and effective conversations through practice with peers. Optional caregiver education will be provided at the same time as a separate group. Attendees need to currently use and have possession of personal AAC systems, be independent with toileting, and be able to safely participate in and attend the group activities. Documentation of current skill level through most recent evaluation and treatment goals is required.

Virtual Teenage Talk Team

June 9, 11, 16 & 18

10:30–11:30am Ages: 14–18

Cost: \$100

This virtual camp has theme-based activities, social skill building, and interactive games. Attendees must be able to independently attend the virtual session and engage verbally with others. Documentation of current skill level through most recent evaluation and/or treatment goals is required.

Ready, Set, College!

June 23–26

3:30–5pm

High School Juniors & Seniors

Attendees will rehearse social language skills and social thinking skills with high school seniors with high functioning autism as they prepare for college. Students will participate in tasks and practice social encounters to help ready them for the university experience.

Stuttering Success

June 16–18 | 1–3pm

Ages: 3–5 • Cost: \$100

June 9–12 | 12:30–3pm

Grades: 3–5 • Cost: \$100

June 23–26 | 1–3pm

Grades: 6–8 • Cost: \$100

An in-person camp that will explore stuttering facts and knowledge in a theme-based setting! The fun activities will encourage learning and rehearsing age-appropriate strategies, techniques, and methods that aim to enhance fluency, increase the opportunities for modifying stuttering, and increase acceptance of moments of stuttering. The tasks will be experiential, active, and engaging and will be based on current evidence-based practices.

Lunch Bunch

June 10, 12, 17, 24, 26 & July 1

11:30am–1:30pm Grades: 3–5

June 9, 11, 16, 18, 23 & 25

11:30am–1:30pm Grades: 6–8

Join our lunchtime social communication group and build your child's confidence in communicating with others. The program focuses on teaching effective pragmatic skills by giving your child the opportunity to practice and use the skills taught in a more natural setting. Conversational skills, such as turn-taking, maintaining topic of conversations, initiating/participating, and asking/answering questions, will be targeted. Other possible pragmatic skills of active listening, expressing feelings, perspective taking of others, making friends, compromising, etc. may be targeted. Lunches will be provided. Attendees must be verbal (may consider use of AAC device) with no history of significant behavior difficulties that could affect the overall group dynamic.

READ to SUCCEED

June 9-12

2-3:30pm Grades: 2-5

Cost: \$100

Does your child have difficulty reading or lack confidence with comprehension? Join this one-week summer program that focuses on building word decoding skills to improve reading fluency and develop strong comprehension of age-appropriate texts while boosting their vocabulary skills.
