The following four-year plan is only one example of a variety of ways students can complete their chosen degree in four years and will serve as guide for them to design their pathway to degree completion.

A bachelor’s degree requires the completion of a minimum of 120 hours, with 42 hours being advanced.

Because a student’s actual semester plan may vary from the examples below, students are requested to see the ASLP academic advisor each semester for help with program decisions and selection of classes. Students are ultimately responsible for meeting all course prerequisites.

Given that the schedule of classes for each semester can be viewed online through students’ myUNT accounts, students are encouraged to enroll in courses on the first day of their enrollment period each semester.
