# Cisco AnyConnect Mobility Client (VPN) for Mac Computers

If you need to access resources that are only available on the UNT Network, you will need to use Cisco VPN (Virtual Private Network) AnyConnect client. To VPN, you will first need to visit a website, log in, and download an executable installer to launch the AnyConnect Client. After you have installed AnyConnect, you will be able to connect to UNT's VPN.

As always, please contact us if you have any additional questions or encounter any issues.

### Installing AnyConnect Client

- 1. Using your preferred browser, visit <u>vpn.unt.edu</u>
- 2. Log in using your EUID and password
- 3. Accept the disclaimer by clicking on **Continue**
- 4. In the left sidebar, click on AnyConnect
